

7. STICK IN THE SAND!

Write sounds with a stick in the sand or mud if you are outside.
For variation outdoors, put shaving foam on a tray and write letters in the foam.

For variation indoors, fill a tray with semolina, rice, lentils, etc. and take different objects to write with (paintbrush, chopsticks, etc.) and write letters in the materials on the tray.

Remember to ask your learner to write the sound k, not the letter "kay".
To combine both, use the pattern "its name is "kay" and it sounds like k".

for individuals
for any size group

8. KNOCK DOWN THE TOWER!

Turn 10 plastic or paper cups upside down and write some sounds (letters) on them. Scrunch some paper into balls. Build the cups into a tower (4 on the bottom, then 3, 2, 1). Create a line that should not be stepped over.

Give your learner(s) 3 scrunched up paper balls and tell them they have to knock as many cups down as possible. Once they are down, a point is scored for each sound the learner(s) can name correctly on the cups they knocked down. Remember you want to hear the sound. If you want both, follow the pattern "its name is "bee" and it sounds like b".

for individuals
for any size group
